

Bodnar Creative

Who We Are

We give voice to your ideas!

It starts with listening to what your team is trying to accomplish, thoroughly researching the facts within your organization, then using our expertise to express your message creatively.

We have years of experience writing clear, concise, effective and persuasive copy, for creative, technical, and public relations projects in every conceivable medium: print, web, video, and broadcast.

Our client list is impressive. Since 1997, Bodnar Creative has successfully served a variety of major automotive, retail, and service companies with complete turn-key services.

Tight timelines are our specialty. We are adept at completing projects ahead of schedule or within tight time lines, providing optimum attention to both small and larger jobs.

Our work week includes evenings, weekends, and holidays at no extra charge. Our turnaround, including errorless proofreading, is second to none. We deliver 24/7 service.

With a proven network of translation, graphics/animation, and interactive/web programming experts as part of our team, Bodnar Creative always produces professional, competent, and eye-catching results.

Desktop publishing, using the latest Adobe Creative Suite software, is another one of our highly developed skills. We can produce great printer and web ready copy or modules with full functionality.

For some marketing and interactive/web projects, we partner with Gyro Creative Group, a full-service agency which features a wealth of talented creative and interactive/web developers. Gyro has a Certified Minority Business Enterprise Certificate.

We also offer highly competent translation services that can translate from and to any language, in any format, at well under the industry price average (includes proofing and project management).

It is always Bodnar Creative's goal to exceed the expectations and goals of EVERY project we are awarded. This includes personal communication, project content, timing and delivery, and overall client satisfaction.

Click through our website menu to learn more about us. Bodnar Creative can help you in MANY ways.
